

# MATERIAL DATA SHEET

<b>PRODUCT NAME</b>	Greener Shipping - Clear Saving	
<b>PRODUCT DESCRIPTION</b>	An Organic Catalyst for use in <u>all</u> internal combustion engines and with all marine fuels.	
<b>FUNCTION</b>	The Organic Catalyst coats the internal surfaces of the combustion chamber which improves fuel efficiency, whilst substantially reducing exhaust emissions. It also protects the engine by increasing the lubrication and effectively cleaning contaminants.	
<b>APPLICATION</b>	Our engineers will carry out a trial to determine correct dosage and application instructions. It is not necessary for any additional equipment to be fitted.	
<b>PRODUCT COMPONENTS</b>	Proprietary 100%	
<b>PHYSICAL PROPERTIES</b>	Appearance	Orange-Brownish Liquid
	Odour	Mild turpentine like odour
	Boiling point	480F (249 C)
	Vapour Pressure	0.03 MM Hg @ 40 C
	Vapour Density	Air = 1
	Specific Gravity (H2O=1)	N/D
	Evaporation Rate (BUTYL.Ac=1)	N/D
	Solubility in Water (% by Weight)	Insoluble
	Solubility in other Solvents	Alcohol; Ether
<b>HAZARD IDENTIFICATION</b> Combustible:	Store in a cool place. Avoid exposure to heat sources.	
<b>HAZARD CLASSIFICATION</b> Harmful:	Eye irritation	Proven to be non-irritating to the eyes
	Skin irritation	Proven to be non-irritating to the skin
	Systemic effects	Moderately toxic by ingestion DO NOT INGEST PRODUCT Moderately toxic by inhalation. USE IN WELL VENTILATED PREMISES
